EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kevin Able on June 20, 2003.

The application has been amended as follows:

Claim 11 has been amended as follows:

11 . (currently amended) A burner assembly for delivering a liquid precursor into a flame as an aerosol to form soot for making optical waveguides, said burner assembly comprising:

a housing having a burner face defining a plurality of gas orifices and an atomization orifice, said housing defining an injector chamber and a plurality of gas passageways, the gas passageways being in fluid communication with the gas orifices and the injector chamber; and

an injector having a first end defining an injector orifice in fluid communication with the liquid precursor and constructed to deliver the liquid precursor as a liquid stream, said injector being positioned within the injector chamber and, together with said housing, defining a pressurization chamber wherein the injector orifice is remote from [form] the atomization orifice.

Claim 19 has been amended as follows:

19. (currently amended) A burner assembly for the liquid delivery of optical waveguide precursors, said burner assembly comprising:

an injector constructed and arranged to deliver the liquid precursor as a liquid stream; and a housing substantially surrounding said injector, said housing having a burner face including an orifice rim defining an atomization orifice, the orifice rim being shaped such that turbulence is reduced as the liquid precursor is discharged from the atomization orifice.
